

Marriage Investment System

HOW IT WORKS

The Marriage Investment System is designed for couples who are ready to make a long-lasting investment in their marriage. Our method combines time-tested biblical truths, research theories, practicums, and prayer. As a result, couples are able to yield high returns in their marriage — taking their relationship to new heights.

God designed the marital union to be an **enjoyable, encouraging, erotic, and ever-growing** experience. So don't settle for less. Our system will help you build a healthy, happy marriage and restore whatever pieces have been broken along the way. While focusing on **Five Key Marital Assets** (*Communication, Conflict Management, Intimacy, Finances, and Family*), our system delivers a personalized marriage investment plan for you.

INVESTMENT OPTIONS

Conservative Investment

If your marriage is in “pretty good shape,” but you want to invest in a maintenance plan, this option is ideal. The *Conservative Investment* helps couples identify potential areas of growth and spot challenges before they occur.

Moderate Investment

Marriage is no “easy street.” In fact, the gravel and potholes along the way can lead to a fatal crash — if left unaddressed. The *Moderate Investment* is for couples who see themselves headed down the wrong path. With the overwhelming hustle and stresses of life (work, family, bills, and obligations), marriages can suffer. But, this investment plan gives couples the strength to rise above their challenges and save their marriage before it's too late.

Aggressive Investment

When all seems lost, the *Aggressive Investment* plan helps couples see the light at the end of the tunnel. No marriage is beyond repair, but it will take work — and a lot of it! This option is designed for couples who are at the point of marital desperation. It digs (deep) down into the root of marital difficulties — rebuilding trust, healing unbearable wounds, opening channels of communication, and restoring the hope that has been lost.
